

Société de Chimie Industrielle Undergraduate Fellows at Columbia University Department of Engineering

| Last Name | First Name | Original Institution | Project | Summer of |
|------------------|-------------------|---|--|------------------|
| Almazan | Ariana Garcia | Columbia University, Chemical Engineering major | An examination of polymer grafted nanoparticle composites for use in membrane separations. | 2016 |
| Kim | Keun-il | Columbia University, Chemical Engineering major | Investigating the spatial-temporal variation of reactant species in photocatalytic suspension reactors for solar fuels production | 2016 |
| Rodriguez | Alexandra | Columbia University, Chemical Engineering major | Hydrometallurgical improvements in copper mining by chemical- and bio- leaching | 2016 |
